Summer School

At this point in time, summer school course availability/offerings are yet to be determined for students. Once the appropriate planning by CCH and Holy Spirit School Division is completed, we will have a separate registration process for those students who have reason to enroll in summer school.

Typically, CCH offers PE10/CALM in the summer for French Immersion students who take on full math and science course loads throughout their high school career, as a priority. IF you think you meet these criteria, please indicate below.

☐ I am a French Immersion student who will have a full high school course load and will NEED to take summer school.

☐ I am not a French Immersion student but am interested in taking summer PE because: _____

Please note, by making these selections this does NOT guarantee any enrollment into Summer PE, as there is a separate registration process later in the school year. Rather this helps with our timetable making process.

PURPOSES OF DIFFERENT COURSE SERIES

In four subject areas – English, Social Studies, Mathematics and Science – these are different course series that are developed for a variety of purposes and have varying degrees of difficulty. The different course series are numbered accordingly.

- Course series numbered 10-1 20-1 30-1 and 31 are designed primarily for students planning entry into university or certain programs in colleges and technical schools.
- English and Social Studies numbered 10-2 20-2 30-2 are designed primarily for students planning entry into certain programs in colleges and technical schools, trade schools, or entry into employment.
- Course series numbered 14 - 24 are designed primarily for students planning direct career entry into some areas of employment.
- The Math 10C and Math 10-2 classes are designed for entrance into a variety of university and college programs (which program will dictate which math stream). Math 10-3 is designed primarily for students planning for some college programming and/or fields of employment.
- English 10-4, Social 10-4, Math 10-4 and Science 10-4 is the designated Knowledge and Employability Program.
- Math 30-2 and Science 30 can be used as an admission subject in specified program at universities, and are highly recommended.
- Learning Support is a program for students who require 1:1 assistance because of multiple disabilities.
