PURPOSES OF DIFFERENT COURSE SERIES

In four subject areas – English, Social Studies, Mathematics and Science – these are different course series that are developed for a variety of purposes and have varying degrees of difficulty. The different course series are numbered accordingly.

- Course series numbered 10-1 20-1 30-1 and 31 are designed primarily for students planning entry into university or certain programs in colleges and technical schools.
- English And Social Studies numbered 10-2 20-2 30-2 are designed primarily for students planning entry into certain programs in colleges and technical schools, trade schools, or entry into employment.
- Course series numbered 14 - 24 are designed primarily for students planning direct career entry into some areas of employment.
- The Math 10C and Math 10-2 classes are designed for entrance into a variety of university and college programs (which program will dictate which math stream). Math 10-3 is designed primarily for students planning for some college programming and/or fields of employment.
- Math 30-2 and Science 30 can be used as an admission subject in specified programs at various universities, and are highly recommended.
- Course series numbered –4 (Social, Science, Math and English) are specific to Knowledge & Employability students. These students will attain a Certificate of High School Achievement. (see Mr. Vercillo)
- Learning Support is a program for students who require 1:1 assistance because of multiple disabilities. (see Mr. Vercillo)
